

# **Resolutions of the People's Legislature**

Here are the four resolutions that were passed at Tuesday's People's Legislature event. These reflect the changes that the **People's Legislature** feel are necessary to repair democracy in the State of Wisconsin:

\*Implementation of comprehensive campaign reform that includes public financing of state political campaigns, full disclosure of political contributions, as well as a ban on corporate political contributions.

\*A merger of the State Ethics and the State Elections Boards into one agency under the direction of a politically independent board.

\*Legislative redistricting reform to create competitive elections.

\*Preservation of local fiscal control to prevent "arbitrary and centralized" budget limits on local units of government.
